Ukrainian National Committee of the International Council of Museums (ICOM Ukraine),
Section of university and higher educational institutions museums and collections of Ukraine on
the initiative of Ukraine's leading universities with information support of Ukrainian centre for
museum activity development announce the International scientific-practical conference
«University museums: European experience and Ukrainian practice», which will take place on a
base of Taras Shevchenko National University of Kyiv on 6-7 October, 2011. (60 Volodymyrska
str., Kyiv, Ukraine).

We invite to participate in conference:

- directors and employees of universities and higher educational institutions;
- directors and employees of university and higher educational institution museums;
- pro-rectors in scientific-educational and pedagogic work in universities and higher educational institutions;
- directors of scientific subdivisions of universities and higher educational institutions;
- lecturers, researchers, postgraduates;
- everyone interested in protection of scientific-cultural heritage of Ukraine.

Aims of the conference:

Finding out the history and present condition of museums attached to Ukrainian higher educational institutions of III-IV accreditation levels. Considering different aspects of museums' activity, its' participation in scientific-educational process and cultural life of a higher education institution. Organizing collaboration and experience exchange between specialists and university and higher educational institution museums of Ukraine.

Analyzing the means for integration into European and world museum space through joining the program of ICOM International Committee for university museums and collections (UMAC).

Involving Scientific-methodical coordination centre of university museums of Eurasian association of universities into collaboration. Compiling a full list of museums and scientific collections attached to higher educational institutions of III-IV accreditation levels. Initiating the creation of information data base covering a part of Museum fund of Ukraine kept by university and higher educational institution museums of Ukraine.

Results of the conference will provide a basis for a necessary annotated reference book of university and higher educational institution museums of Ukraine.

Modern world tendencies of education and science development set up new claims for treatment of university and higher educational institution museums of Ukraine. Overall results of the regular inspection of university and higher educational institution museums administrated by the Ministry of education and science, youth and sport of Ukraine (order № 239, dated 17.03.2011) certified an insufficient level of putting in order and classification of museum network of higher educational institutions of Ukraine.
