

Academic Heritage Day  
at the Medical University of Białystok  
celebrated under the theme *Discovering the magical world of human cells*

This year the Medical University of Białystok joins for the first time the all-European celebrations of academic heritage. Referring to this year's main theme of the Academic Heritage Day "Deep into the rabbit's hole", we decided to invite all those interested in discovering the magical world of human cells. The Department of Pathomorphology of the Medical University of Białystok will present its research base for the morphological diagnostics of cancer.

Program

18<sup>th</sup> November, 2013

12.00 – 13.00 "Morphological diagnostics of cancer" – lecture; venue: Aula Magna of the Branicki Palace (address: Kilińskiego 1, Białystok)

13.30 - 15.15 "The path of a tissue sample from material collection to diagnosis" – visiting the Department of Pathomorphology, histological and cytological examinations of preparations using light microscopes and multimedia program with scanned materials; venue: Collegium Pathologicum of the Medical University of Białystok (address: Waszyngtona 13, Białystok)

The events are organized by the Department of Medical Pathomorphology, the Museum of the History of Medicine and Pharmacy, and the Promotion and Recruitment Bureau of the Medical University of Białystok.

The number of places is limited. Reservations should be made at: The Museum of the History of Medicine and Pharmacy, tel. +48 85 748 54 67; e-mail: [museum@umb.edu.pl](mailto:museum@umb.edu.pl).

Everyone interested in discovering the mysteries of the secret world of the human cell is kindly welcome.
