

Dear Friends,

Many thanks to the UNIVESEUM network to invite us to celebrate the European Academic Heritage Day across Europe in 18 November 2010.

In this respect, two virtual exhibitions will be organized at Transilvania University of Brasov, Romania:

A HERITAGE TO SAVE, A HERITAGE TO VALUE
JOURNAL OF FORESTS
1886-2010

In the patrimonial collections of *Transilvania* University Library of Braşov one can find the almost complete collection of *Journal of Forests*, which has the longest uninterrupted apparition among Romanian periodicals. Since its very beginning in 1886-1887, *Journal of Forests* promoted high level scientific articles of keen interest for those times specialists and foresters. Nowadays that content of great historical value is hardly accesible since the paper of the older issues is damaged and the public access to them is limited. In this respect, the main goal of this virtual exhibition is to make widely available the oldest issues of *Journal of Forests* in a digitalised, friendly, searchable form.

TIME TRAVEL
BULLETIN OF THE TRANSILVANIA UNIVERSITY OF BRAŞOV
(1956-2008)

This virtual exhibition is dedicated to the apparition of the 50th issue of the series, within the 60th anniversary year of the higher education from Braşov. The exhibition sets about presenting the evolution of the scientific research activity of the academic community, included in *Bulletin of the Transilvania University of Braşov* as the scientific journal annually published by Transilvania University of Braşov. The virtual exhibition is an overview in which the cover, the title page and the contents of the issued series, during the period 1956-2008 is included.
